EVENING EDITION.

ATLANTA, GEORGIA::::::MARCH 18.

J. C. NORRIS.—We are requested to state by J. C. Norris, Sheriff of Warren county, that he did not suggest the resolution offerred in the Senate this morning by Mr. Bruton, authorizing the Governor to call upon the Secretary of War for troops to aid Sheriffs in making arrests, and that he is opposed to it.

NO RADICAL.—Col. W. F. Jordan, although classed as a Radical, is a Conservative, and votes according to the dictates of his own heart, and not the dictates of any party. He stated in the Senate this morning, that he was actuated by a desire to bring peace to the whole country, and he would not knowingly vote to bring chaos and ruin on his country.

HON. A. D. NUNNALLY.—Yesterday, Hon. A. D. Nunnally, the genial and talented Senator from the 26th District, made an eloquent speech against the adoption of the 15th Amendment. He said under no circumstances could he be induced to vote for so great an iniquity. He would never swerve from principle for the sake of policy, or "do evil that good might come." He considers unswerving devotion to principle a better advocate than violent denunciation. His bold, out-spoken and manly utterances were received with high appreciation by the audience.

Mere Mention.

THE KRAKEN REDIVIVUS.—Capt. Perry, of the buoy tender Maggie, which arrived at Charleston on Saturday morning, reports that about ten days ago, while off St. Simon's Bay, on the coast of Georgia, he fell in with a dead monster of the deep floating on the surface. The carcass stood fifteen feet out of water, and was about thirty feet long by twenty wide, with an alligator shaped head attached to the body by a neck about fifteen feet in length. As well as could be judged, the creature was shaped like a tortoise, had been dead some time, as the atmosphere was tainted with the smell. Captain Perry sailed within five feet of the carcass, and would have taken it in tow but a gale was rising and he was anxious to make an offing. The Captain, who is an old whaler, says that he never has seen such a sight, and judges that the unknown creature must have been one of the oldest inhabitants of the briny deep, as the deep corrugations on its back showed that it had attained an advanced age. The "strange fish" was subsequently seen by several of the pilots and the light-house keeper of St. Simon's, who all corroborate Captain Perry's statement. When last seen, the body was drifting toward land, where it will probably remain and furnish phosphates for future generations. Quite a fishy story.—*Savannah Advertiser.*

☞ Speaking of the inauguration ball, and the exclusion of the man and brother therefrom, the Albany Evening Journal, an intensely Radical paper, says:

"The repugnance of certain associations and affiliations are perfectly natural. * There are physical and mental differences in the two races which separate them by an inexorable law of repulsion, and which can be overcome by no amount of humanitarian philosophizing or philanthropic legislation. The white does not accept the black as a congenial fellow and associate. And he never will. * * We believe that sensible colored people will agree with us upon this point. They see that neither their own happiness nor their position in society will be improved by their ignoring the differences which the Almighty has created. No black man with a proper sense of self-respect would seek to crowd himself into society where he was not wanted, and where he must be conscious that all around regarded him as an inferior."

FAREWELL, NECK!—The Atlantic Monthly says that the Yankee "school marms" intend to put their feet on the neck of the South." To which the Galveston Star responds by asking if they think our people have no eyes. And to which we say: Farewell, neck! A pancake will be a veritable sphere, compared with the everlasting flatness of that neck when the aforesaid feet light on it.

"REV" TUCKER AS A LANDLORD.—The renowned Beverly Tucker, of Virginia, has leased the "Stephenson House," at St. Catherines, Canada West, and will open it in May.

RESOLUTIONS.

By Mr. SPEER—Adopted.

Upon the passage of this resolution, Messrs. Smith, of the 7th, Bruton and Candler, of the Auditing Committee, declined to serve. They were excused, and the Chair appointed Messrs. Hinton, Smith, of 36th, and Moore, as the Committee.

By Mr. MOORE—Unanimously adopted.

HOUSE OF REPRESENTATIVES.

THURSDAY, March 18.

House met pursuant to adjournment. Prayer by Rev. Dr. Brantley. Journal read and approved.

UNFINISHED BUSINESS.

The purchase of the Capitol building being unfinished business, was taken up.

The CHAIR ruled that a majority of the votes having been cast to adopt the Senate resolution purchasing the building, and a quorum being present but refusing to vote, he decided that the question was settled.

Mr. SCOTT, of Floyd, appealed from the decision of the Chair, and spoke at length, giving reasons why he thought it should be overruled.

Mr. SHUMATE said it was a dangerous precedent to adopt, giving the minority the power to control legislation by refusing to vote, and that it was well established that it could not be done. A quorum was present, and when it was settled by two ballots that the friends of this measure were in the majority, the minority refused to vote. He hoped the ruling of the Chair would be sustained.

The previous question called and sustained, and yeas and nays required on appeal from decision of the Chair, and were, yeas 55, nays 64; and the Chair was overruled.

Mr. SCOTT, of Floyd, moved to postpone indefinitely. The yeas and nays being required, were, 61 yeas, 57 nays, so the resolution was indefinitely postponed.

A bill to authorize Clerks of Superior Court to approve bonds of Ordinaries. The House amended by striking out Clerks and substituting Judges of Super Court.

The Senate refuses to agree to the amendment and the House insists on their amendment.

Several bills were read that had been passed in the House and endorsed in the Senate.

A bill to incorporate the City Bank of Albany. Passed.

The House then adjourned until 3 o'clock P. M.

☞ We must relate an anecdote on the venerable Dr. Lovic Pierce and our very accommodating hack-driver, Mr. Russell Bailey. Sometime ago the Doctor paid our town a ministerial visit. Upon arriving at the station he was met by Mr. B.; who politely escorted him to his hack. Now be it known that Mr. Sherman (un)-kindly relieved Mr. B. of his best hack, and the one in which the Doctor was so kindly invited to take a seat, showed unmistakable signs of hard service. Fearing an accident, the Doctor asked:

"Do you think your hack perfectly safe?"

"O, yes," said Bailey. "That hack, sir, is like the Old Ship of Zion—

"She has landed many thousands and can land as many more."

The Doctor's faith being strong, (if he did have 'doubts and fears' about the hack,) he came through safe, and many more have been landed since. However, Bailey has a better hack now.—*Sandersville Georgian.*

☞ "My son," said the veteran at the foot of the stairs, "arise and see the newly risen luminary of day, and hear the sweet birds singing their matin song of praise to their great Creator; come while the dew is on the grass and tender lambs are bleating on the hillside; come, I say, or I'll be up there with a switch, and give you the cussedest licking that you ever had."

☞ London has a young ladies' boarding school, where the girls are always "falling in love." The principal says she cures the attacks by close confinement and doses of senna tea. She says the tea never fails. Sometimes the girl gives in after a few doses, but usually it takes two or three days, and in one case she was a whole week effecting a cure. For a school girl's "calf love," she declares there is nothing like senna tea.

☞ There are very few persons who have not heard of Mary Constantine, the kleptomaniac, who will steal from churches and is generally caught. The Charleston News says that Mary has robbed the Cathedral there repeatedly, and has almost as widespread acquaintance in that city as here.

☞ Henry M. Steele, a native of Baltimore, and a son of the sister of Philip Barton Key, who was killed by General Sickles, committed suicide, Wednesday morning, at his boarding house, on Irving Place, New York, by shooting himself through the head. Mental depression, in consequence of domestic infelicities, is assigned as the cause of the act.

☞ This section of country was visited by heavy frosts on Monday and Tuesday last, which killed the young corn, injured the cane, and did considerable damage to the gardens; and it is feared that the orange crop, to some extent, has been injured, though the trees around town show but little sign of the frost.—*Tampa Peninsular, 6th.*

AN INGENIOUS INVENTION.—Thomas G. W. McMeekin, of Polk county, has shown us the model of a very ingenious plowing and hoeing machine, recently invented by himself. It is arranged to run astride the cotton rows, plowing on both sides and chopping out or hoeing the cotton all at the same time.—*Rome Courier.*

SUGAR PLANTING.—Our coast planters are busy now setting out their plant cane. From all we can gather, the seed cane is not as much injured as was apprehended from the excess of rain we have had this winter. Where the plant was well mattrassed and covered, it presents a fine appearance, and gives promise of a good stalk.—*New Orleans Times.*

Our New Job Office.

We have an entire new JOB OFFICE, embracing presses, types, borders, cuts, rules and everything pertaining to a complete outfit.

We are prepared to fill all orders for plain, fancy and ornamental work, in the neatest style, on the shortest notice, and at the lowest living rates.

We respectfully solicit the patronage of our friends and the public generally.

☞ The Boston Post says of the substitution of Mr. Boutwell for Mr. Stewart in the Treasury Department: "Instead of the vigorous and comprehensive reforms which might have been looked for under Mr. Stewart, we shall have a narrow, humdrum, partisan management of affairs, which leaves little hope for the inauguration of those great improvements which an able incumbent, like Mr. Stewart would have been eager to establish."

☞ Few are aware of the fact that China contains one third of the human race. The latest returns made to her central authorities for taxing purposes, by the local magistrates, make her population *four hundred and fourteen millions*; and this is more likely to be under than over the actual aggregate. Nearly all of those who are over ten years old not only can but do read and write.

☞ The Chicago Times has a brief but painted biography of the new Secretary of War. That paper says: "Mr. Rawlins was a Democratic lawyer in Galena at the outbreak of the war, and is said, by those who should know, to still hold Democratic opinions on all questions but 'reconstruction.' But he is probably more devoted to the fortunes of Grant, in whose rise he has risen, than to the welfare of the body politic."

THE GREAT STEWART HOTEL.—A. T. Stewart has begun the erection of an immense hotel, having a front of two hundred feet on Fourth Avenue, and two hundred and ten feet each on Thirty-second and Thirty-third streets, New York city. The first floor will be rented for stores. The property is to be managed in the interests of the Working Woman's Union Board is to be furnished as cheaply as possible, and the accommodations will be excellent. A quarter of a million has already been expended, and it is expected the entire work will cost over $2,000,000.

Grant and the Politicians.

The New York World, says the Nashville Banner, has neither the expectation nor the wish that General Grant will join the "Democratic party." The expectations and desires of the Richmond Whig are not far variant from those of the World, but perhaps, for different reasons, and reasons, let us add, more in accordance with our own views on that point. The World seeks party success by party means, and with little regard to the interests of the country, as is the case with the ultra Radicals and the henchmen of Stokes in this State, who manipulate the Loyal Leagues. The Richmond Whig anticipates but little good—certainly none to the South—from mere party triumphs. Here is what the Whig says, and who can doubt that there is wisdom, common sense and practical statesmanship in the patriotic view it takes:

We believe that General Grant can maintain the independent and elevated position which he has assumed without doing any violence to the relations he bears to the party which elected him. *In that position he can effect more for the country and more for his own fame than by becoming the tool of a faction.* Violent and malignant partisans may be displeased; but all the patriotic of his own and other parties will rally to his support.

He professed in becoming a candidate an earnest desire for peace. Like a man of sense, he knows this object is not to be attained by stirring up old quarrels and rubbing old sores. He turns his back upon the unpleasant past, and directs his face toward a cheering future. He does not lard his discourses with the unctious epithets of rebel and traitor; but his words are mild, and his invocations are for moderation and mutual forbearance, and the restoration of a kindly feeling. It is certain he means what he says. He is for peace—real peace, and by the gentle and conciliatory means most likely to produce it. If he thereby offends radical politicians, either Republican or Democratic, and they wage war upon him, on their heads be the consequences. For our part, we care not whether he is called Republican or Democrat, while he achieves the ends he aims at; but *we think his success will be easier and more certain by pres-rving intact his relations with the party that elected him.*

AT HOME AGAIN.—The editor of the Watchman has returned to his post and has barely time to announce that he will next week, and on sundry occasions thereafter, give his views in reference to men and things, both at home and elsewhere.

As to the question of representation in Congress, his residence at Washington has satisfied him beyond doubt that no Democrat will be admitted, no matter how great his majority or how often his disabilities may have been removed. Col. Switzler, of Missouri, whose majority was sixteen hundred, and who was intensely "loyal" during the war and could take the test oath forty times a day, was rejected by a large majority, and, that too, after the Committee of Elections had twice reported in his favor! The same was true of Col. Hunt, of Louisiana, whose majority was eleven thousand! Other like cases might be cited. There is not a man in the House who expects to see another Southern Democrat admitted, whether he has disabilities or not.

The Radicals are distrustful of Grant—there is much dissatisfaction in regard to his Cabinet and other appointments—and things generally are in a ferment.—*Southern Watchman.*

PENFIELD CLAIM REDIVINUS.

Mr. NUNNALLY moved to take up the report of the committee on the Penfield claim.

This motion elicited much discussion which was terminated by a motion to adjourn for half an hour, which was carried.

HALF HOUR OF FUN.

During the half hour adjournment, Theodosius Dionysius Wright was called to the Chair, and the time was spent in facetious motions, buncombe resolutions and spirited debate. The song by the Senator of the Sixth was a telling one. It was a scene defying description, and to be appreciated must have been witnessed.

The Senator from the Thirty-Fourth sung, in handsome style, "The Blue Bull Over the Mountain," and the Senator from the Forty-Fifth sung the following:

CLOSING HYMN.

We would not sit always—we ask not to stay,
Though sweet the per diem nine dollars per day.
The few paltry pickings left by Bullock here,
Are not worthy the taking. So ends our career.

We would not sit always, though tricked of our tin,
Temptation without and corruption within.
A people self-ruling, their traitors will spurn,
We would not sit always—we move to adjourn.

MISCELLANEOUS.

The reasons of many Senators for voting for the Brunswick and Albany Railroad, were read and ordered spread upon the Journal.

On motion of Mr. MERRILL, a Joint Committee of three from the Senate, and as many as the House may appoint, was appointed to wait upon the Governor and inform him that the General Assembly is ready to adjourn *sine die*, and to ascertain if he has any further communication for that body.

The House then adjourned *sine die* fifteen minutes after 9 P. M.

☞ The word "can-can," used to designate the extravagant, and, in some respects, immodest style of dancing of which we have had so much lately in our theaters, is an importation from France, but by no means of modern origin. It was at first spelled "quam-quam," and was the name given to the Latin orations delivered by young theological students before their doctors or professors. Coming into popular use, it was applied first in the form "quan-quan," as it is found spelled in the French dictionaries of a century ago, and then in that of "can-can," to all sorts of sorts of noisy, empty talk, including more particularly that of a scandalously, gossippy character, and answering to our English "chatter," "gabble" and "clack."

Some etymologists see in it an attempt to imitate the quacking made by gees and ducks, which indeed it represents when pronounced in the French mode; but this is clearly not its first source. When a few years ago, the dancers at the public balls Paris begin to indulge in gestures and steps which transgressed the conventional bounds of propriety, their performances of course made a great talk or "can-can" among respectable people, and so the word became identified with the subject, which gave rise to the "can-can." Americans, it is said, are far from comprehending the full meaning of the motions, attitudes and looks in which the can-can dancers indulge; and as "where ignorance is bliss it is folly to be wise," we trust they may remain unenlightened.—*New York Citizen.*

AN IMPORTANT RUMOR.—An impression prevails that with the confirmation of the report of the establishment of a provisional government by the Cuban insurgents, President Grant will recommend its immediate recognition, and certainly the recognition of their belligerent rights. His frank and surprisingly bold declarations on this subject leave no doubt as to his opinions and wishes, and corresponding action may be confidently anticipated.—*Washington Express, March 15.*

☞ In Paris, by a two cent tax on each opera and theatre ticket, 7,820 charity hospital beds are supported.

☞ Workmen are now busily engaged framing bridges on the Chesapeake and Ohio railroad, to be put up between Covington and the White Sulphur Springs.

☞ The silk manufacturers of California have growing 1,175,000 mulberry trees. The total production of raw silk in the State last year amounted to 1,917 pounds.

☞ A New Hampshire paper mentions a man who sent twenty-five cents for "a splendid steel engraving of Andrew Jackson," and got a one-cent postage stamp.

☞ A. Gosling, of Bradhead, Wisconsin, is manufacturing a velocipede. Then, we suppose, the young goslings can fly.

☞ Col. James Casey, nominated on Thursday as Collector of New Orleans, and Dr. Sharpe, nominated as Marshal of this District, are brothers-in-law of Grant.

☞ The rumor that General Logan was lately admitted to the Methodist Church, at Carlinville, is correct; but he is kept on probation so long as he continues in Congress.

—OF THE—
SOUTHERN STATES.

THE Undersigned is now ready to grant Lisences or to sell Factory or Territorial rights for the use of his improved Appliances for the Manufacture of Imperishable Concentrated Extract from Oak Bark, for Tanning and Coloring purposes, requiring them for either a small royalty or a reasonable consideration for excelsior rights.

A Factory complete in all its appointments, capable of manufacturing 50 barrels of Extract every 24 hours—will cost Eight Thousand Dollars, not including cost of motive power, which may be of Steam or Water, and of 25 Horse Power.

A Factory of half the capacity, or 25 bbls per 24 hours, will cost Five Thousand Dollars. While a Factory capable of producing from 12 to 15 bbls per day—will cost, not to exceed Three Thousand Dollars

The above estimates include cost of Building Tanks—which are of wood—Mill Condensing Appliances, and every requisite save motive power, which may be of Water or Steam, and of from 15 to 20 horse power as per capacity of Factory.

STATE OF GEORGIA,

BY RUFUS B. BULLOCK, GOVERNOR OF SAID STATE

WHEREAS, Doctor George W. Darden was arrested by the town Marshal of the town of Warrenton, in the county of Warren, in this State, under and by virtue of a warrant issued by the coroner of said county; and,

WHEREAS, The said Doctor George W. Darden was placed in confinement in the county jail of said county, by said Marshal, and the keys of said jail placed in possession of John C. Norris, High Sheriff and Jailor of said county, on Friday the 12th day of March instant; and,

WHEREAS, The said John C. Norris, High Sheriff and Jailor as aforesaid, having reason to believe that an attempt would be made by an unauthorized and unlawful body of armed men, who were then and there at and surrounding said jail, to violently take from said jail the said Doctor George W. Darden, he, the said High Sheriff and Jailor as aforesaid, called upon many of the good citizens of said town and county, to act as a *posse* for the protection of said jail; and,

WHEREAS, The said good citizens, through fear of the aforesaid unauthorized and unlawful body of armed men, declined to serve as called upon by the said High Sheriff and Jailor; and,

WHEREAS, Certain members of the aforesaid unauthorized and unlawful body of armed men surrounding said jail, came to the house of said High Sheriff and Jailor at or about eleven o'clock, on the night of the Friday aforesaid, and demanded the delivery of the keys of the said jail; and,

WHEREAS, The said High Sheriff and Jailor having upon refusal to deliver said keys, had good reason to believe that his own life was endangered from the violence of said unauthorized and unlawful body of armed men, absconded himself, taking with him the said keys; and,

WHEREAS, Reliable information has been received at this department, to the effect that the said Doctor George W. Darden was, at or about the hour of midnight on the said Friday, the 12th day of March instant, taken from the said jail by a person or persons as yet unknown to the civil officers, and then and there, in the presence of his family, ruthlessly and barbariously murdered his body having been almost literally riddled with pistol balls; and,

WHEREAS, It is reported by the aforesaid High Sheriff and Jailor of the county aforesaid, that the offering of a suitable reward is essential as a means of insuring the arrest and conviction of the said person or persons, at present unknown, who, it is alleged, have committed this great crime against the life of a citizen and against the laws of the said state, in defiance of her officers,

Now, therefore, I, Rufus B. Bullock, Governor of this State and Commander-in-Chief of the army and navy and of the militia thereof, do hereby issue this, my proclamation, offering a reward of FIVE THOUSAND DOLLARS for the apprehension of the party or parties committing said crime, together with evidence which will lead to his or their conviction.

For Sale at Auction!

THE BEST
HOTEL PROPERTY
IN THE SOUTHERN STATES.

I WILL offer for sale at auction, on the 16th day of April, next, on the premises, the property known as the WASHINGTON HALL PROPERTY, situated in the city of Atlanta, State of Georgia. Atlanta is located near the geographical centre of the State and is at present the termination of four of the principal railroads of the South, viz.: the Western and Atlantic, passing through the mountains, and over which passes the produce and passengers of the Great West to Atlanta, and from Atlanta diverges the Georgia Railroad, leading to Augusta and Charleston, S. C.; the Macon and Western Railroad connecting at Macon with the Central Railroad leading to Savannah, and the West Point and Montgomery railroad, leading to Montgomery and Mobile, Ala. There are also two other railroads in contemplation, viz, the Atlanta and Jacksonville Railroad, which is to be put under contract very soon, connecting with a road running to Decatur, Ala., and then connecting with the great Memphis and Charleston Railroad, forming a direct line from Memphis to Charleston, S. C., through Atlanta. The Air Line Railroad Company has lately been organized and the work commenced and will soon be completed forming an Air Line Railroad direct from New York to New Orleans. The Air Line from New York to Atlanta, connecting then with the West Point and Montgomery, forming the Air Line road to New Orleans, makes Atlanta the terminus of seven of the most important railroads in the Southern States. Atlanta beside being a great railroad centre, is now the permanent capital of the State, and is unsurpassed for health delightful climate and good water, by any city either North or South, and its rapid growth (having increased in population in less than three years from 5,000 to 25 000), and increasing in wealth in proportion both of which is without parallel in the history of any Southern city, or very few of any other country), should be satisfactory evidence that capital cannot be more profitably invested anywhere than in Atlanta. The great want of a hotel of sufficient capacity to accommodate travelers that pass through Atlanta is still further evidence that it is the place of all others to invest capital in Hotel Keeping. The Washington Hall Property is most admirably located for that business, being situated within 61 feet of and fronting upon the beautiful Park, and only 80 feet from the passenger Depot, thereby saving omnibus fare or expense of moving baggage; and fronting 160 feet upon the Park and extending 300 feet upon the Georgia railroad right of way, and being within 100 feet of the geographical centre of the city, and also of the business centre, makes it every way the most desirable unimproved property in the South for hotel purposes. The property will be sold for one third cash and the balance on six and twelve months. There is no place in the country, North or South, where building can be done cheaper than in Atlanta. The titles to the above property are indisputable and the sale will be positive.

DR. JOHN BULL'S
Great Remedies.

DR. JOHN BULL,
Manufacturer and Vendor of the Celebrated
Smith's Tonic Syrup,
FOR THE CURE OF
AGUE AND FEVER,
—OR—
Chills and Fever.

The proprietor of this celebrated medicine justly claims for it a superiority over all remedies ever offered to the public for the safe, certain, speedy and permanent cure of Ague and Fever, or Chills and Fever, whether of short or long standing. He refers to the entire Western and Southwestern country to bear him testimony to the truth of the assertion, that in no case whatever will it fail to cure, if the directions are strictly followed and carried out. In a great many cases a single dose has been sufficient for a cure, and whole families have been cured by a single bottle, with a perfect restoration of the general health. It is, however, prudent, and in every case more certain to cure, if its use is continued in smaller doses for a week or two after the disease has been checked, more especially in difficult and long-standing cases. Usually, this medicine will not require any aid to keep the bowels in good order; should the patient, however, require a cathartic medicine, after having taken three or four doses of the Tonic, a single dose of BULL'S VEGETABLE FAMILY PILLS will be sufficient.

Bull's Worm Destroyer.

To my United States and World-wide Readers

I have received many testimonials from professional and medical men, as my almanacs and various publications have shown, all of which are genuine. The following letter from a highly educated and popular physician in Georgia, is certainly one of the most sensible communications I have ever received. Dr. Clement knows exactly what he speaks of, and his testimony deserves to be written in letters of gold. Hear what the Doctor says of BULL'S WORM DESTROYER:

VILLANOW, Walker Co., Ga., June 29, 18[illegible].

DR. JOHN BULL—Dear Sir: I have recently given your "Worm Destroyer" several trials, and find it wonderfully efficacious. It has not failed in a single instance to have the wished for effect. I am doing a pretty large country practice, and have daily use for some article of the kind. I am free to confess that I know of no remedy recommended by the ablest authors that is so certain and speedy in its effects. On the contrary they are uncertain in the extreme. My object in writing you is to find out upon what terms I can get the medicine direct from you. If I can get it upon easy terms, I shall use a great deal of it. I am aware that the use of such articles is contrary to the teachings and practice of a great majority of the regular line M. D.'s, but I see no just cause or good sense in discarding a remedy which we know to be efficient, simply because we may be ignorant of its combination. For my part, I shall make it a rule to use all and any means to alleviate suffering humanity which I may be able to command—not hesitating because some one more ingenious than myself may have learned its effects first, and secured the sole right to secure that knowledge. However, I am by no means an advocate or supporter of the thousands of worthless nostrums that flood the country, that purport to cure all manner of disease to which human flesh is heir. Please reply soon, and inform me of your best terms. I am, sir, most respectfully,

JULIUS P. CLEMENT M. D.

Bull's Sarsaparilla.

A Good Reason for the Captain's Faith.

READ THE CAPTAIN'S LETTER AND THE LETTER FROM HIS MOTHER

BENTON BARRACK'S Mo., April [illegible]

DR. JOHN BULL—Dear Sir: Knowing the efficiency of your Sarsaparilla and the healing and beneficial qualities it possesses, I send you the following statement of my case.

I was wounded two years ago—was taken prisoner and confined for sixteen months. Being moved so often, my wounds have not healed yet. I have not set up a moment since I was [illegible]. I am shot through the hips. My general health is impaired and I need something to assist nature. I have more faith in your Sarsaparilla than in anything else. I wish that that is genuine. Please express me half a dozen bottles [illegible]

Capt. C. P. JOHNSON.
St. Louis, Mo.

P. S.—The following was written April [illegible], by Mrs. Jennie Johnson, mother of Captain Johnson:

DR. BULL—Dear Sir: My husband, Dr. C. I. Johnson, was a skillful surgeon and physician in Central New York, where he died leaving the above C. P. Johnson to my care. At thirteen years of age he had a chronic diarrhœa and scrofula, for which I gave him your Sarsaparilla. It cured him. I have for ten years recommended it to many in New York, Ohio and Iowa, for scrofula, fever scores and general debility. Perfect success has attended it. The cures effected in some cases of scrofula and fever sores were almost miraculous. I am very anxious for my son to again have recourse to your Sarsaparilla. He is fearful of getting a spurious article, hence his writing to you for it. His wounds were terrible, but I believe he will recover.

Respectfully, JENNIE JOHNSON.

DR. JOHN BULL—Dear Sir: Last February I was in Louisville purchasing drugs, and I got some of your Sarsaparilla and Cedron Bitters.

THE ATLANTA ACID AND FERTILIZING COMPANY.—We have just seen the bill passed by the present Legislature, authorizing said Company, consisting of Messrs. Redwine & Fox, John G. Reynolds, Robert Baugh, and A. Leyden, to manufacture Acids and Fertilizers. This bill confers privileges—such as to authorize them to test the experiment whether Georgians can be supplied, to some extent, with home-made fertilizers, or whether millions of dollars annually shall be sent abroad to purchase an article inferior to one to be made in our midst. We know the gentlemen to whom this trust has been committed, and from their energy and means, we bespeak for the planters a new era in the expenses and facilities in procuring fertilizers. Acids can be made here at one-third less than they can be laid down here of foreign manufacture, and as they enter largely with the expense of making fertilizers, we see no reason why they should not be offered to the public at figures greatly below the present prices. They have become a necessity to the planting interest of Georgia, and we predict for the above company, not only handsome profits for investments, but that the country will have reason to rejoice at the inauguration of such enterprises as confer benefits upon so large a class of our people. We understand the company will organize at an early day, and propose to raise one hundred thousand dollars with which to begin the work.

We hope to be able soon to give a more extended notice of this company.

From Washington.

Special Correspondence of the Baltimore Gazette]

WASHINGTON, March 14.—The intimations from this point of a contemplated change in the *form* of our Government are by no means sensational. They are the effect of the universal apathy of the people under the most flagrant usurpation of power. When Cæsar crossed the Rubicon, the people of Rome had already become imbecile, luxurious and corrupt. The form of Government ceased to be a question in which they felt they had the slightest concern.

The contest was narrowed down to an issue purely between two rival military chieftians. It is the deliberate opinion of thoughtful men here of both political parties that we are upon the eve of a fundamental political change. The people of the United States are at this moment in a condition more favorable to the ambitious views of a daring man than were the Romans when they differed only in the choice of a master—ranging themselves on the side of Cæsar and Pompey respectively.

Doubtless the pressent supineness and docility of the people is to be attributed mainly to the tremendous conflicts through which the country has passed. The mere idea of the possibility of another is quite sufficient to throw a vast majority of them into a paroxysm of terror. It is also felt that, with the popular suffrage diluted as it now is, and will further be, the right to vote is next to no right at all, and that being the only one left, its surrender, together with the now unmeaning and expensive forms of a Republic, would be a sacrifice amply compensated by the security of life and personal liberty and property, the assumed fruits of kingly authority.

A master is therefore wanted! An apathetic nation invites a yoke for its people to save them from an imaginary danger! Who will the King be? Undoubtedly Grant might, without a blow, have assumed and maintained regal power. Had he the nerve? No! The thing was unquestionably in his head, and hence the original programme of his cabinet and his other appointments. But he cowered at the first symptoms of revolt on the part of a faction in the Senate who would have surrendered at discretion upon the summons of a single Orderly Sergeant. People, although without courage, admire it in leaders, and are very quick in discovering the white feather. General Grant, by his surrender to Wilson and Sumner in the appointments of Boutwell to the Treasury and Motley to the English mission, has forever broken the spell that might have enthralled a great people. The substitution of Boutwell for Stewart is the more astounding since the latter was declared a free trader, (and therefore acceptable to the President's own section," while the former is an avowed protectionist, and generally inimical to the interests of the West. Of the appointment of Motley I hear no special complaint from any quarter. The reason is so obvious that it need not be referred to. In other respects the new President has lost moral power. The very small piece of malice displayed in the removal of General Blair from merely an honorary position, at so early a time as to impart to the act the character of mere spite, is quite sufficient to show that the new President will prove harmless, except as the willing tool of the Radical faction. X.

☞ The first jury for Washington county, under the new law, was drawn on Saturday last. Such a Petit Jury—if we may so term it—in point of ability, has seldom ever been drawn in Georgia. Some of the first men in the county are on it. The Grand Jury proper, of course, is composed of the same material. The law must be a good one.—*Sandersville Georgian, 17th.*

READ, O WOMAN!—As health is the greatest blessing on earth, so is disease the greatest curse. The first wish of the heart, therefore, in a temporal view should be health. Nor is this all. As disease renders us unfit to perform the various duties appropriate to our station in life, there is a moral obligation resting upon us to preserve our physical integrity, by using the means at hand for repelling disease.

Now there is nothing so destructive to health in females as a continued *suppression of the menses*. It is a condition which makes a woman useless to herself and a burden to her friends. Dr. J. Bradfield's *Female Regulator, Woman's best Friend*, is the only certain cure. Lose not a moment in embracing the remedy. feb14-tf

ATLANTA, GEORGIA: MARCH 18

Sudden Deaths.

It becomes our painful duty to record the deaths, in Sandersville, on Tuesday and Wednesday, 9th and 10th, of two brothers, John and Ezekiel Kelly, aged 17 and 19, after an illness of a few hours. Both were well and attended to their usual labor on the farm on Monday. Monday night John was taken with a pain in the shoulder. He grew worse rapidly, convulsions ensued, and he died Tuesday forenoon. Up to this time Ezekiel was well. In fact he was seemingly in perfect health at supper Tuesday night. Partook heartily of the meal, little thinking that before morning dawn he would sleep in death beside his brother. But, alas, such is life! When hope seems brightest and death in the far distant future, he is even at the door. Ezekiel complained of a hurting in his arm. Like his brother, he grew rapidly worse, and in a few hours lay cold and lifeless, shrouded for the tomb.

Several physicians visited the premises and upon inspecting the remains, pronounced the disease crebro-spinal-meningitis.

These two youths were the sons of Mr. James Kelly, deceased. They have left a widowed mother, whose main-stay they were, besides several brothers and sisters. The bereaved family have the heart-felt sympathy of the entire community.

Little did we think when, one week ago, we penned the line "not a case of serious illness," that at that moment "the dark angel" was hovering over the town and had singled out his victims, who would be called away *so soon*. One week ago they were merrily at work, in health, hope buoyant, looking to a bright and joyous future, and calculating, doubtless, on a long and happy life. But the Master saw that it was not best for Zeke and John to stay, and He took them. Reader, were you called to-night as they were, are you prepared to go? Truly death comes as a thief in the night, and when he comes there is no delay. God help us all to keep our lamps trimmed and burning, that, when the messenger comes we may be ready to meet him.

P. S. It is with feelings of deep sorrow that we record the death of still another Little Willie Newman, (aged about twelve years) son of Mr. Mark Newman, died on Monday night last, 14th inst., of the same fatal disease. The fond father of Willie is in New York, and knows not that death has claimed his darling boy. Heaven sooth the sorrow of the bereaved household.

We regret to state that other cases are reported this morning, (Tuesday). Every family should immediately resort to brown doses of quinine and tar-water.

N. B. Still another. Dear little Flora Brantley is an angel now. She died this morning (Tuesday). Her baby sister is very ill. These are children of Dr. S. D. Brantley. God help us all!—*Sandersville Central Georgian, 17th.*

THE DAUGHTER OF AARON BURR.—Theodosia Burr's habits of life were, I have heard my mother say, much like those of Mrs. Kemble. She was a famous walker and skater, and accompanied her father on shooting and fishing excursions. As a horsewoman, she was unsurpassed; and on her visits to her New England friends, some lines astonished their quiet neighbors by riding over the country, taking walls and ditches in flying leaps. Yet she was, in the best sense of the word, feminine and essentially a lady.

The last days of this grand woman were very sad, and her fate is even yet wrapped in awful obscurity. It is only known that when broken in health and almost in heart, by the loss of her only son, she embarked for Charleston, to join her unhappy father in New York, on a small sailing vessel, accompanied only by her physician and servant.

That vessel never was heard of more, and it has always been supposed that it foundered in a gale, off Cape Hatteras. But some twenty-five or thirty years ago a seaman, dying in a hospital at New Orleans, confessed to having been a pirate; and, among other terrible things, he told of his ship having run down a schooner bound to New York from Charleston, and of having scuttled her after taking possession of everything valuable. The few passengers, he said, and such of the crew as were disinclined to enlist under their black banner, they compelled to walk the plank. Among the passengers was one lady, who remonstrated against having her hands bound and being blindfolded, promising to offer no resistance. So they let her have her way, he said; and she stepped quietly on to the plank, and, with her eyes wide open, walked off into the sea. I have always believed that the woman who met her fate in this grand Roman way was the daughter of Aaron Burr, Theodosia Alston.—*Grace Greenwood, in the Independent.*

APPRECIATIVE.—On Saturday last, at the regular monthly meeting at Sisters Church, the ladies of the congregation presented their Pastor, Rev. T. J. Cumming, with a beautiful patch work quilt, as a mark of their appreciation of his faithful services as their minister.—*Sandersville Georgian.*

☞ Almost every day we hear many persons complaining of headache, loss of appetite, and that they are not fit to do anything, etc. Many is the day that we have felt so ourselves, and in fact have gone to bed and imagined ourselves sick, but for the life of us could not tell what was the matter. One day while thus complaining, a friend said to us, "Why don't you try Plantation Bitters? they are really a good thing and will make you feel like a new man." Upon his recommendation, we purchased a bottle, and took them according to the directions. They seemed to go right to the spot, and gave us immediate relief. Ever since we have taken every opportunity to recommend them.

DARBY'S

Prophylactic Fluid.

Letter from Hon. Alex. H. Stephens, of Georgia.

CRAWFORDSVILLE, GA., Sept. 20th, 1869.

Darby's Prophylactic Fluid is an article of little cost, but great value. Its domestic as well as medical uses are numerous, while its applicabilities are most wonderful. I have not been without it for ten years, and no head of a family who can afford to have it should be without it.

ALEX. H. STEPHENS.

The Wonderful Family Medicine.

Letter from the Surgeon General of the late Confederate States.

RICHMOND, VA., Jan'y 14, 1868.

John Darby & Co., No. 160 William St., N. Y.

Gentlemen: I have received your letter of the 15th of December, 1866 calling my attention to your (Darby's Prophylatic) Fluid.

I most cheerfully state that the Fluid was furnished to, and extensively used by the Surgeons in charge of general hospitals in the Confederate service with great benefit to the patients and all the surgeons using it gave a favorable report—a great deal of it was used in the hospitals.

Very respectfully your ob't serv't,

SAM'L PRESTON MOORE, M. D.

THE ASTONISHING DISINFECTANT.

EMORY COLLEGE, OXFORD, GA.

December 28th, 1868.

Prof. Darby: Dear Sir—Having not been engaged for many years in the active duties of the Medical Profession I am only superficially acquainted with the claims of your Prophylatic Fluid, but am well acquainted with its chemical elements.

While therefore, I cannot speak experimentally of the value of the compound, yet be di inclined and Therapeutic properties of the agents employed in its composition, together with the well known reputation of its discoverer, as a chemist authorize me to regard its merits as of a high order—on be whose it must be considered as a valuable contribution to the class of articles to which it belongs.

These views, may add, are sustained by the testimony of in ny competent judges, who have tested its properties

Believe me, dear sir, yours respectfully,

TUSCALOOSA, December 3 1868.

Messrs. John Darby & Co., 160 William St., N. Y.

Gentlemen:—I received your Circulars of the 15th inst. asking an expression of opinion from me as to the merits of your Prophylatic Fluid. The preparation has been so generally used by the profession and public at large and so universally esteemed, that it seems to me to need no further recommendation.

As a Disinfectant, and remedial agent too, when indicated, it is not excelled by any similar preparation. We use per manganic preparations very extensively in this Hospital, and could not do without them. I consider yours the best and most elegant preparation of the kind manufactured. Respectfully yours, &c.,

WESLEYAN FEMALE COLLEGE,
STAUNTON, VA., Jan. 9, 1869.

Prof. Darby:—When I was President of the LaGrange Female College of Georgia I used your Prophylactic Fluid in the College with decided success. Both as a disinfectant and as a remedy for sores and burns, etc., it was efficacious and proved to be what it is represented. Every family and public institution ought to have it. I wish you great success in the sale of it.

TESTIMONIALS:

We select the following extracts for the benefit of those who have not used Rhodes' "standard" Manure:

S. Wyatt, Esq., of Allington Plantation, near Waynesboro, Ga., writes as follows to Messrs. B. M. Rhodes & Co.:

"Your Phosphate I am highly delighted with. I gave it a fair trial along with several other standard Manures, and I regard it fully equal if not superior to the best of them. On one field of 100 acres, that I am sure would not, in its natural state, have produced over 40 lbs. of seed cotton to the acre. I have already gathered 700 pounds, and think I shall get fully 900 pounds more.

"Two other fields of 100 acres, better land, I have gathered, at two pickings, over 1,000 pounds to the acre of seed cotton, and think I shall get 200 pounds more.

"I tried it, also, on corn, and found it very good, but not equal in its results to the cotton crop. Several of my neighbors whose lands adjoin mine, and is pretty much the same character of land who used no fertilizer at all, have significantly failed, making no more than half a crop if so much as that. Where I applied Rhodes' Phosphate the cotton was heavily fruited, boll large, the staple longer, stouter and better than where none was used, so much so that any one, even though he may never have seen the growth before, could readily see it. The only objection to it is, it causes the cotton to open faster than we can possibly gather it—at least, such is my experience."

T. C. Howard, Esq., of Darien, Ga., writes as follows:

"It is proper that I should say the results of the use of your fertilizer have been very marked and indeed surprising. I have made more cotton by its aid on worn out land, than has not been in cultivation in two years past, than I have been able to do on the best swamp or bottom land on my place in Mississippi."

ATHENS, Ga., January 23 1869.

Messrs. P. P. Pease & Co., Atlanta: I applied the two tons of Rhodes' Super-Phosphate, which you furnished me last year, at the rate of 400 pounds to the acre, on thin land, considerably exhausted by continued cultivation, without manure, and have no hesitation in saying that it is an excellent fertilizer for cotton. On the eight acres to which I applied it, I picked upwards of 3,000 pounds of seed cotton—more than double what the land would have produced without the fertilizer. It is also proper to mention, that while the caterpillars stripped all the leaves and young bolls off an adjoining patch, manured with Dickson's Mixture, commencing their ravages in August, they did not attack that manured with Rhodes' Super-Phosphate until the first week in October.

Thousands of certificates and letters could be published showing the value of Rhodes' "standard," a quick and permanent fertiliser.

The above analysis indicates a MANURIAL SUPERPHOSPHATE OF LIME OF THE HIGHEST GRADE ordinarily found in the American market. Its large amount of SOLUBLE PHOSPHORIC ACID supplies an active nutriment for the development and maturity of the fruitage. The Sulphuric Acid which it contains, by chemical affinity with the elements of most soils, contributes to its fertilizing properties. To show its best effects, this Superphosphate should be applied under and in contact with the seed, and with a moderately shallow covering of soil.

THIS institution offers the following advantages to young ladies and gentlemen who wish to attend a first-class school:

BOARD can be had in splendid families at $12 per month.

TUITION $3 to $5 per month—payable in advance. Every member of the Faculty is a thorough and experienced teacher.

We teach all day, and hence our pupils make about double the progress of students at other schools.

We teach Scientific Book-Keeping and the higher branches of Mathematics practically, on Saturdays, without extra charge.

Instead of crowding the MEMORY with facts and theories only, we succeed in bringing out and developing the REASONING FACULTIES.

The society is unsurpassed and the locality very healthy. Boarding rooms can be had very near the Seminary building and at first-class houses.

Lastly, we have already a large, flourishing school, and therefore, do not find it necessary to receive rowdy boys or fole girls in our classes. Hence, to receive admission students must come well recommended as to morals, studious habits, &c. The present term will close the last of June.
